BACKGROUND

Under the umbrella of E-Rare-3 (ERA-Net for research programmes on rare diseases), the funding organisations mentioned in the call text have agreed to fund the ninth E-Rare joint transnational call (JTC 2017) for collaborative research projects on Rare Diseases. The E-Rare funding organisations particularly wish to promote interdisciplinary collaboration and to encourage translational research proposals.

REGISTRATION

Research consortia who intend to submit a transnational project proposal should register at the electronic proposal system as soon as possible (<https://www.pt-it.de/ptoutline/ERARE17>). The system will be opened in the first week of January 2017 latest. To register, please fill in the data sheet of the system. The same data sheet can later be used for the final electronic proposal submission.

PROPOSAL SUBMISSION

There will be a **two-stage submission procedure for joint applications: pre-proposals and full proposals**. In both cases, one joint proposal document (in English) shall be prepared by the partners of a joint transnational proposal, and must be submitted to the Joint Call Secretariat (JCS) by one spokesperson, the coordinator.

Electronic pre-proposal submission is mandatory. To apply, please use the pre-proposal template provided on the E-Rare web page (www.e-rare.eu). Joint pre-proposals (in English) must be received by the JCS in an electronic version no later than **1st February 2017 at 05 p.m. CEST**.

Electronic full proposals submission is mandatory. Please note that joint full proposals will be only accepted from those applicants explicitly invited by the JCS to submit them. Full proposals (in English) must be received by the JCS in an electronic version no later than **2nd June 2017 at 05 p.m. CEST**.

Please note that project coordinators will be provided with the opportunity of studying the assessments of external reviewers and commenting on their evaluations of full proposals (for details see point 5.3.3. *Rebuttal stage* in the “Call text”). The applicants will have up to one week (**between first and second week of July**) for this **optional response to the reviewers’ comments**.

Please note that a signed paper version of your proposal will not be solicited. However, both the electronic pre-proposals and full proposals need to be signed (electronic signature or a scan of the paper containing the signature will be accepted)

Please take into account that the online data entry may be overloaded on the days of the deadlines. It is therefore recommended to transfer all obligatory data in good time.

PRE-PROPOSAL STRUCTURE

One joint pre-proposal document (in English) shall be prepared by the partners of a joint transnational proposal, and must be submitted to the JCS by one spokesperson, the coordinator. Only transnational projects will be funded (please see consortium properties described in the “Call text”).

Please note that only the **pre-proposal templates** provided on the E-Rare web page (www.e-rare.eu) will be accepted. The pre-proposal document must respect the format (DIN-A4, Arial 11, single-spaced) and the length indicated. **Pre-proposals exceeding these limitations will be rejected.**

Pre-proposals must include the following information:

1. Project title and acronym
2. Name and full affiliation of the project coordinator designated by the consortium to act as its representative
3. Names and full affiliations of the principal investigators participating in the joint transnational project
4. Duration of the project (months)
5. Total funding applied for (€)
6. Keywords (between three and seven keywords representing the scientific content)
7. Lay summary (max. 1600 characters including spaces)
8. Description of the project (once converted into Pdf document: max. 5 pages DIN-A4, Arial 11, single-spaced, and margins of 1.27 cm). The summary must contain:
 - Background and present state of the art in the research field and preliminary results obtained by the consortium members
 - Description of the working program including the objectives, the rationale and the methodology, highlighting the novelty, originality and feasibility of the project
 - Unmet medical and patient need that is addressed by the proposed work and the potential health impact that the results of your proposed work will have
 - Added value of the proposed transnational collaboration*If the application concerns a request for extension of a project funded in previous E-Rare calls, add 1 page describing the scientific results achieved in that project so far.*
9. Diagrams of the work plan, timeline, work flow and interconnections of work packages (Gantt chart, Pert or similar, max. 1 page)
10. In addition, the following items can be added to the pre-proposal (*optional*):
 - a list of references
 - a page of diagrams, figures, etc. to support the work plan description (max. 1 page)
11. Budget plan of the project
12. Brief CV for each principal investigator including a description of the main domain of research and a list of the 5 most relevant publications within the last five years regarding the proposal (once converted into Pdf document: max. 1 page DIN-A4, Arial 11, single-spaced, margins of 1.27 cm per principal investigator)
13. Date and signature of the coordinator

FULL PROPOSAL STRUCTURE

The information given in the pre-proposal is binding. Thus, any fundamental changes between the pre- and full proposals, e.g. composition of the consortium, objectives of the project, must be communicated to the JCS with detailed justification and will only be allowed by the Call Steering Committee (CSC) under exceptional circumstances.

Please note that only the **full-proposal templates** provided on the E-Rare web page (www.e-rare.eu) will be accepted. The proposal document must respect the format and the length indicated. **Full-proposals exceeding these limitations will be rejected.**

Full proposals must include the following information:

- Project title and acronym
- Name and full affiliation of the project coordinator
- Names and full affiliations of each principal investigator and other personnel participating in the transnational project
- Duration of project
- Total project cost and total budget requested
- Scientific summary (max. ½ page)
- Keywords (5 to 7)
- Background and present state of the art in the research field (max. 2 pages)
- Preliminary / previous results obtained by the consortium members (if the application concerns a request for extension of a project funded in a previous E-Rare Joint Transnational Call, please describe the scientific results achieved in that project so far, including: publications, collaboration, impact on clinical and public health applications and relevance to patients' needs.) (max. 2 pages, only if applicable)
- Work plan (aims, methodology, involvement of participants clearly defining the responsibilities and workloads [expressed in person months] of each participating research partner, time plan, project coordination and management; max. 15 pages)
- References
- Financial summary for each consortium member
- Added value of the proposed transnational project collaboration (max. 1 page)
- Unmet medical and patients' need that are addressed by the proposed work and the potential health impact that the results of your proposed work will have
- Translability of the project results: Description of the potential of the expected results for commercial exploitation and for future clinical, public health and/or other socio-economic health relevant applications (including description of the exploitation strategy for project results focussing on the next steps in the therapy development process (e.g. regulatory advice, orphan designation, cooperation with industry partners, business development concept etc.)) (max. 1 page)
- Description of patents and present / future position with regard to intellectual property rights, both within and outside the consortium (e.g. any barriers to sharing materials or translating the results into clinical application) (max. ½ page) Description of ongoing or submitted research grants of each participating partner related to the present topic (indicating funding sources [include at least: ID number, amount and duration of funded project; funding agency] and possible overlaps with the project proposed) (max. ½ page per research partner) Ethical issues of the project proposal. When applicable, ethical and legal issues (e.g. informed consent, ethical permits, data protection, use of animals) according to partner country and/or regional regulations (max. ½ page)
- Concept for sustainability of infrastructures initiated by the project (e.g. registries, cohorts, biobanks, databases, etc.) and their possible interaction with European Infrastructure Initiatives (where applicable, e.g. BBMRI, ELIXIR, EATRIS, ECRIN, EU-Openscreen, etc.) (max. 1 page)

- Description of participation/engagement of Industry within the proposal, including their role and contribution (max. 1/2 page, only if applicable).
- Description of participation/engagement of patient organizations within the proposal, including their role and contribution (max. 1 page, only if applicable).
- Scientific justifications of requested budget (rational distribution of resources in relation to project's activities, partners responsibilities and time frame; when applicable specifying co-funding from other sources necessary for the project (max. ½ page per research partner)
- Brief CVs for each participating principal investigator with a list of up to five relevant publications within the last five years demonstrating the competence to carry out the project (max. 1 page each)
- When requested by a national's eligibility criteria, additional information must be provided. The information provided will be checked by the corresponding national organisation

Applicants are invited to **name potential experts** suited for the evaluation of their full proposals. These experts should not have any conflict of interest (e.g. co-publication in the past three years or current close collaboration) with the partners involved, otherwise they will not be considered. Experts not suited due to conflict of interest (e.g. direct competition) could be also named in the electronic proposal submission system form.

PLEASE NOTE

Some advice to succeed with your proposal:

- **read several times the call text**, including the aim of the call and the evaluation criteria
- make sure that your proposal falls into the **scope of the call**
- make sure that your proposal fulfills the **eligibility criteria of the joint call**
- make sure that all consortium members have understood the **national eligibility criteria and requirements (Annex 2) and that they fulfill these criteria**
- make sure that all consortium members contacted their national representative and confirmed eligibility with their respective funding organisations in advance of submitting an application (see annex 2)
- prepare your proposal in advance
- enter the requested information on the submission site as soon as possible
- use the proposal templates provided on the E-Rare web site (www.e-rare.eu)
- respect the length limitations of each section in the proposals

Only the pre-proposal and full proposal templates provided on the E-Rare web page (www.e-rare.eu) will be accepted. Proposals exceeding the length limitations of each section **will be discarded without further review**.

Please note that proposals not meeting the formal criteria or the national eligibility criteria and requirements **will be declined without further review**.

Applicants are advised to read the national eligibility criteria and requirements and confirm eligibility with their respective funding organisations in advance of submitting an application (Annex 2).

PROJECT START AND CONSORTIUM AGREEMENT

Consortium members of projects selected for funding **must fix a common project start date**, which would be the reference date for yearly and final reports and extensions. This common project start date must appear in the Consortium Agreement.

It will be the responsibility of the research consortium coordinators to draw up a Consortium Agreement (CA) suitable to their own partner in order to manage the delivery of the project activities, finances, intellectual right properties (IPR) and to avoid disputes which might be detrimental to the completion of the project.

The research consortium is strongly encouraged to sign this CA before the official project start date, and in any case the CA has to be signed no later than six months after the official project start date. Please note that national regulations may apply concerning the requirement for a CA. (Please contact your national contact point or check the country-specific information below).

The purpose of this document will be:

- to underpin the research partners' collaboration and provide the research partners with mutual assurance on project management structures and procedures, and their rights and obligations towards one another;
- to assure the CSC that the research consortium has a satisfactory decision making capability and is able to work together in a synergistic manner.

The following subjects (as a minimum) should be addressed by the CA:

- purpose of and definitions used in the CA
- names of organisations involved
- common start date of the research project
- organisation and management of the project
- role and responsibilities of the research consortium coordinator and the research partners: person in charge, their obligations and key tasks, conditions for their change
- deliverables (transnational reports and if relevant requirements for national reports where coordination is required)
- resources and funding
- confidentiality and publishing
- Intellectual Property Rights (how this issue will be handled between research partners)
- decision making within the consortium
- handling of internal disputes
- the liabilities of the research partners towards one another (including the handling of default of contract).

ANNEX 1: Overheads in each country/region

COUNTRY/REGION	FUNDING AGENCY	OVERHEADS
Austria	The Austrian Science Fund (FWF)	Overheads are not eligible costs for FWF
Belgium (Flanders)	Research Foundation Flanders (FWO)	Overheads are not eligible costs for FWO.
Belgium	Fund for Scientific Research - FNRS (F.R.S.-FNRS)	Overheads are not eligible costs for FNRS.
Canada	Canadian Institutes of Health Research (CIHR)	Overheads are not eligible costs for CIHR.
Canada (Quebec)	Fonds de recherche du Québec-Santé (FRQS)	Overheads are not eligible costs for FRQS.
Finland	Academy of Finland (AKA)	According to Academy guidelines for full cost model. Draft the application so that the Academy's contribution to funding comes to no more than 70% of the estimated total project costs.
France	French National Research Agency (ANR)	Please note that at ANR « overheads » means « frais généraux de gestion – frais de structure », and 8% of the total eligible costs must be applied if the partner belongs to a public research organisation, or 68% of the total personnel costs and 7% of other costs if you belong to another category (cf “Règlement financier ANR – section 4.2.3.5)
Germany	German Federal Ministry for Education and Research (BMBF)	Overheads refer to “Gemeinkosten” (applicable for Helmholtz-centres and Fraunhofer-Society) as well as “Projektpauschale” (applicable for universities and university hospitals). The “Projektpauschale” generally will amount to 20% of the applied total project expenditure. For further information on the “Projektpauschale” please refer to https://foerderportal.bund.de/easy/module/easy_formulare/download.php?datei=179 (Pos. 0865) or contact the German national contact point for this E-Rare call
Germany	German Research Foundation (DFG)	The “Programmpauschale” generally will amount to 22% of the applied total project expenditure. See www.dfg.de for further details.
Greece	General Secretariat for Research and Technology (GSRT)	5% of the direct costs of the project.
Hungary	National Research, Development and Innovation Office (NKFIH)	20% of the direct costs of the project. Applicants should consult general NKFIH regulations for details.

Israel	Chief Scientist Office, Ministry of Health (CSO-MOH)	10% of the direct costs of the project
Italy	Ministry of Health (MoH-IT)	Up to 10% of the direct cost of the project, intended to cover the general cost of the institution that hosts the research team and which cannot be used by the research team
Latvia	State Education Development Agency (VIAA)	Indirect costs (up to 25% of direct costs exempt subcontracting, with justification) . Overheads are part of the total budget and therefore must be respected when calculating funding limits.
Poland	National Centre for Research and Development (NCBR)	That costs cannot account for more than 25% of eligible project costs, and are counted as a multiplication by percentage given above and the rest of direct costs, excluding subcontracting. Project Investigators should contact their national contact point for details.
Romania	Executive Agency for Higher Education, Research, Development & Innovation Funding (UEFISCDI)	Up to 20% of the direct costs (excluding subcontracting)
Spain	National Institute of Health Carlos III (ISCIII)	Up to 21% of the direct costs.
Switzerland	Swiss National Science Foundation (SNSF)	Overheads are not eligible costs as part of the funded projects. Overheads are paid to the research institution (not to the researchers themselves) and is limited to a maximum of 20% of the relevant SNSF grant.
Turkey	The Scientific and Technological Research council (TUBITAK)	Overheads are not eligible costs for TUBITAK on ERA-NET funded projects, there are special agreements with universities in addition to the project budgets, (10% of the direct costs of the project, intended to cover the general management costs of the organisation that hosts the research team and the use of the amount depends on the internal regulations of the organization)

ANNEX 2: National/regional regulations

It is strongly advised that all applicants contact their E-Rare-3 National Contact Point in good time before the submission of a proposal

Eligibility of a partner as a beneficiary institution	All legal entities (public and private sector)
Eligibility criteria and funding (Legal/administrative/financial conditions)	Aid for research and development projects 1. The aided part of the research and development project shall completely fall within one or more of the following categories: (a) fundamental research; (b) industrial research; (c) experimental development; 2. The eligible costs of research and development projects shall be allocated to a specific category of research and development and shall be the following: (a) personnel costs: researchers, technicians and other supporting staff to the extent employed on the project; (b) costs of instruments and equipment to the extent and for the period used for the project. Where such instruments and equipment are not used for their full life for the project, only the depreciation costs corresponding to the life of the project, as calculated on the basis of generally accepted accounting principles are considered as eligible. (c) Costs for of buildings and land, to the extent and for the duration period used for the project. With regard to buildings, only the depreciation costs corresponding to the life of the project, as calculated on the basis of generally accepted accounting principles are considered as eligible. For land, costs of commercial transfer or actually incurred capital costs are eligible. (d) costs of contractual research, knowledge and patents bought or licensed from outside sources at arm's length conditions, as well as costs of consultancy and equivalent services used exclusively for the project; (e) additional overheads and other operating expenses, including costs of materials, supplies and similar products, incurred directly as a result of the project;

3. The aid intensity for each beneficiary :

- (a) 100 % of the eligible costs for fundamental research;
- (b) 50 % of the eligible costs for industrial research;
- (c) 25 % of the eligible costs for experimental development;

4. The aid intensities for industrial research and experimental development may be increased up to a maximum aid intensity of 80 % of the eligible costs as follows:

- (a) by 10 percentage points for medium-sized enterprises and by 20 percentage points for small enterprises;
- (b) by 15 percentage points if one of the following conditions is fulfilled:
 - (i) the project involves effective collaboration:
 - between undertakings among which at least one is an SME, or is carried out in at least two Member States, or in a Member State and in a Contracting Party of the EEA Agreement, and no single undertaking bears more than 70 % of the eligible costs, or
 - between an undertaking and one or more research and knowledge-dissemination organisations, where the latter bear at least 10 % of the eligible costs and have the right to publish their own research results;
 - (ii) the results of the project are widely disseminated through conferences, publication, open access repositories, or free or open source software.

Innovation aid for SMEs

1. The eligible costs shall be the following:

- (a) costs for obtaining, validating and defending patents and other intangible assets;
- (b) costs for secondment of highly qualified personnel from a research and knowledge-dissemination organization or a large enterprise, working on research, development and innovation activities in a newly created function within the beneficiary and not replacing other personnel;
- (c) costs for innovation advisory and support services;

2. The aid intensity shall not exceed 50 % of the eligible costs.

3. In the particular case of aid for innovation advisory and support services the aid intensity can be increased up to 100 % of the eligible costs provided that the total amount of aid for innovation advisory and support services does not exceed EUR 100.000 per undertaking within any three year period.

Aid for process and organisational innovation

1. Aid to large undertakings shall only be compatible if they effectively collaborate with SMEs in the aided activity and the collaborating SMEs incur at least 30 % of the total eligible costs.

2. The eligible costs shall be the following:

- (a) personnel costs;
- (b) costs of instruments, equipment to the extent and for the period used for the project. Where such instruments and equipment are not used for their full life for the project, only the depreciation costs corresponding to the life of the project, as calculated on the basis of generally accepted accounting principles are considered as eligible.
- (c) costs of contractual research, knowledge and patents bought or licensed from outside sources at arm's length conditions;

	(d) additional overheads and other operating costs, including costs of materials, supplies and similar products, incurred directly as a result of the project. 3. The aid intensity shall not exceed 15 % of the eligible costs for large undertakings and 50 % of the eligible costs for SMEs. Further information regarding the categorization of aid intensity is available at the national guide published at GSRT website. <i>Eligible costs as Indirect costs</i> Up to 5% of the total budget. <u>Upper funding limits for the eligible costs</u> The Upper limit of the total public funding will be 100.000 € per project. The maximum state aid intensity will be calculated according to the provisions of the European state aid rules and regulations in force (type of research activity, size of the participating enterprise, collaborative research).
Submission of the proposal at the national level	After the selection of the projects at European level a national call will be launched for the submission of the approved proposals at national level in order to be funded by GSRT .
