

Title : ERA-NET Suscrop Partnering tool

Dear Madam or Sir

Suscrop call coordination provides to you a partnering tool at <https://www.suscrop.eu/call1>

It is proposed to help all potential applicants to find suitable partners for submitting a preproposal to the Suscrop cofounded call.

It can be used to :

- [Post a Partner Offer/Request](#)

Applicants are kindly asked to post an entry in the partnering tool, if they are looking for collaboration opportunities in the project consortia and would like to offer their expertise. They are also welcome to make a post, if they already have a project idea and are currently looking for further partners that would like to join a consortium. Applicants should add their contact details, description of the organization, key words describing the field of their research, interests and experience, field of expertise and know-how that the organization/applicant can offer in relation to one of the listed call (sub)topics of ERA-NET SusCrop.

- [Search List of Partner Offers/Requests posted by others](#)

The database can be searched by call topics, keywords and all the information provided by its users.

More practical information in the attached pdf file.

Please note:

The plausibility check will be performed by the ERA-NET SusCrop Joint Call Secretariat for each entry. If the provided information passes this plausibility check, (might take up to a few days), the request(s) will be published on the page "List of Partner Offers/Requests". Following the publication, all provided information will be publicly available."

Don't miss the opportunity!

Kind regards

The call secretariat
