1. Introduction

1.1. About your proposal

All documentation relative to the call is provided on the following ANR website page: https://anr.fr/en/call-for-proposals-details/call/challenge-ia-biodiv-research-in-artificial-intelligence-in-the-field-of-biodiversity/.

Prior to submission, the project coordinator must carefully read the call announcement¹ and prepare a project proposal document, to be submitted in PDF format, following the templates available on the call page²:

- Submission model for the french project (French consortium);
- Submission model for the african-french project (african-french consortium) - AFD
  + Mandatory appendix for the african-french project (african-french consortium) - AFR.

1.2. About the submission system

The IA-BIODIV Challenge electronic submission system is based on the French National Research Agency (ANR) electronic submission platform (https://aap.agencerecherche.fr/). The present document is designed to guide you through the submission process and ensure a smooth submission.

Each modified page in the submission platform must be saved (using the “Save” button) before going to another page.

1.3. Roles in the submission process

A Consortium is composed of project partners represented each by a Principal Investigator (PI). The project coordinator creates the proposal in the submission system and adds the other project partners. The partner PIs are automatically informed by email. The email invites them to log into the system in order to complete, check or modify the information provided by the coordinator about them. It is the responsibility of the coordinator to ensure that the partner information is properly filled in. When the proposal is complete, the coordinator can lock it, which prevents the other partners to update their information. Only the coordinator is allowed to modify the project-level information.

2. How to connect

The coordinator and the other PIs can connect to the website in the following way.

2.1. Submission website

The electronic submission system is available at the following URL:
https://aap.agencerecherche.fr/_layouts/15/SIM/ Pages/SIMNouveauProjet.aspx?idAAP=1481

NOTE: The user interface is bilingual (French and English). Click on the flag on the upper-right side of the screen to reach the pages in English. You can change the interface language at any time.

2.2. Create an account

The welcome page of the submission system is shown below. Fill in the form with your personal information (Last name, First name, Email address).

If you already have an account on the ANR submission website, you can go directly to the authentication page.

If you have forgotten your password, you can ask for a new one on the authentication page.

2.3. Activation of your account

An email will be sent from the website in the following format (if you do not receive the email, please check your spam box):
