

Franco-American projects Generic Call for Proposals 2024 - CHEMISTRY

Lead Agency Procedure (ANR)

Important

1. Franco-American projects shall **be evaluated only by the ANR**, according to the rules of its Generic call for proposals.
2. The annex to the AAPG 2024 setting out detailed rules for the submission and funding procedures applicable to French teams working on Franco-American projects will be available **by the end of September, as the DCL for the NSF**.
3. **Although the detailed information is not available yet, applicants are invited to start the registration accordingly to the information from the AAPG 2024 guide:**

The French Scientific Coordinator **must register his/her intention** to submit a "PRCI" project on ANR's submission website **before 5 pm (Paris time) on October the 19th, 2023**. This registration with ANR is **mandatory** (*cf. §B.4. In the AAPG 2024 Guide*) to be entitled to take part in the selection process. No pre-proposal is required at this stage.

To register an intention to submit a Franco-American PRCI project, the applicant must complete the online form, the content of which is detailed in the AAPG2024 Guide (*cf. §B.4.1. Submitting pre-proposals (PRC/PRCE/PRME/JCJC instruments) and registering (PRCI instrument)*). Foreign partners **must be clearly identified in the online form**.

In the online form, a **distinction must be made** between the provisional amount of grant requested by **French partners** and the provisional amount of grant requested by **foreign partners** from their respective national agency. The possible durations of the projects proposals are: 48 months maximum (24, 30, 36, 42, 48).

The acronym and project title provided to each agency **must be the same**.

The acronym chosen and the name of the French coordinator are definitive and cannot be modified when the full proposal is submitted. This also applies to the choice of the scientific evaluation panel (*cf. AAPG 2024 Guide, §B.4*).

4. Before submitting research project proposals:

It is **essential to carefully read [work programme 2024, the generic call for proposals \(AAPG\) 2024, the AAPG 2024 guide](#)**, the rules relating to ANR funding allocation procedures (<https://anr.fr/fr/rf/>) and the annex as soon as available.
